1. The following is an examiner's statement of reasons for allowance: the prior art references of record fail to teach the additional limitations of the swell of the first liner member for reinforcing at least one region of a forehead region and of a thickness larger than that of a portion of the first liner member which excludes the swell and the hollow of the second liner member having a thickness smaller than that of a portion of the second liner member which excludes the hollow, the swell fitted in the hollow.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note particularly, the similar liner constructions of Marker and Wyckoff and the similar ventilation arrangements of the liners of Kamata, British patent to Lu, Japanese patent to Kameyama, Hasegawa and Broersma.
